  - 18. Plant Breeders' Rights (PBR): .....
  - 19. Trademark: .....
- Signature registrant: .....

Before choosing a name for submission for registration the editions of "The Classified List and International Register of Tulip Names" or "The International Checklist for Hyacinths and Miscellaneous Bulbs" should be consulted. Any name, which appears in them, should be avoided.

In choosing a name regard should also be had to the rules and recommendations in the "International Code of Nomenclature for Cultivated Plants". A name, which does not conform to the Code, cannot be accepted for registration.

It would be appreciated if some bulbs or tubers of the cultivar to be registered could be sent to the KAVB to be planted in our Trial Garden.
